**Request Description**

Short Description :

On August 23, 2013, in response to a question asked by the Missouri Coalition for the Environment (MCE) regarding access to the administrative/public record at the West Lake Landfill, EPA Region 7 responded the Administrative Record stored in Bridgeton needs to be improved and that EPA Region 7 is considering options for improving access and/or placing these documents on its webpage.

MCE is not convinced the Administrative/Public Record is still fully accessible to the public, at least through the EPA Region 7 website, which does not include the below records:

- 1) Report from EMSI submitted in January 2014 "Evaluation of Possible Impacts of a Potential Subsurface Smoldering Event on the Record of Decision - Selected Remedy for Operable Unit-1 at the West Lake Landfill"
- 2) Remedial Investigation/Feasibility Study

Therefore, MCE requests a comprehensive index of documents and reports used to inform:

- 1) The 2008 Record of Decision beginning when EPA Region 7 assumed jurisdiction of the site, and
- 2) The ongoing Record of Decision amendment/addendum
